ADEPT-MICRO

PRODUCT DESCRIPTION

Adept-Micro inlays and tags are specifically engineered for the unique identification of small-sized products across various industries. Designed with precision, they deliver outstanding performance when tagging compact items, particularly in pharmaceutical and healthcare applications. These inlays ensure reliable readability on challenging small form factors such as syringes, plastic and glass vials, ampoules, and diverse packaging formats. Their optimised antenna design enables consistent performance even in close proximity and high-density environments. Ideal for item-level tracking, authentication, and traceability.
