

PRODUCT DATASHEET

ADEPT-TRAVELLER

PRODUCT DESCRIPTION

An Aether-Traveller is a windshield tag which is a secure tag for long-range vehicle identification. Designed for permanent, non-transferable use, it adheres to the inside of a vehicle's windscreen. Featuring a front-facing barcode or QR code for easy processing, the tag delivers reliable performance with a 10-12 metre read range. Subsurface printing protects critical data beneath a durable layer, ensuring resistance to tampering and wear. Any attempt to remove or duplicate the tag results in its destruction, providing enhanced security.
