REGALIA-3515

PRODUCT DESCRIPTION

Regalia-3515 tags are reusable jewellery tags specifically engineered for the unique identification of jewellery products. Designed with precision, they deliver outstanding performance when tagging jewellery that comprises items like necklaces, rings, earrings, and bracelets crafted from precious metals (gold, platinum, and silver) and gemstones. Their optimised antenna design enables consistent performance even in close proximity and high-density environments. Ideal for other applications like cable tracking, data centres, other similar products
